

Ventoux 2

Ventilated chainsaw trousers, class

2 type A

1RX2A2PAS

The Ventoux 2 chainsaw trousers are an excellent compromise between safety and comfort. Safety because they offer a higher level of chainsaw protection compared to the widely spread class 1 protective trousers. Comfort because of the ventilation mesh on the back of the legs - you'll thank us for this in warm weather – and because of the lighter weight. The trousers are lighter and less bulky compared to a pair of class 3 chainsaw trousers, which are very often overqualified for the occasion. In addition the Ventoux 2 offers all the features that characterize the BasePro range: excellent fit, lightweight PES/COT outer fabric and all the necessary pockets for your comfort.

Colours

- Anthracite/Black (835)

EU Size

- regular: XS-3XL

Certification

- EN ISO 11393-2 : 2019 / Class 2 - 24 m/s design A
