Ridley

Flame-retardant, anti-static rain jacket

721803EF7

The Ridley is a flame-retardant and anti-static raincoat that offers very good protection. The fabric is perfectly waterproof and never gives you a clammy feeling thanks to its breathable coating. The standing collar and the sleeve narrowing with press studs act as wind breakers. This comfortable raincoat has two loops for gas detection meters, two inset pockets and one inside pocket. In addition, there is a special storage pocket inside for a hood that you can purchase separately. This jacket can be combined with two separately available fleece linings that can be zipped in when it gets colder. The raincoat has a narrow reflective FR strip for improved visibility.

Colours

- Navy blue (B75)

EU Size

XS-5XL
